

GALGO

GALGO is a duo from Asturias, the multi-instrumentalist Javier Bejarano and the pianist Verónica R. Galán.

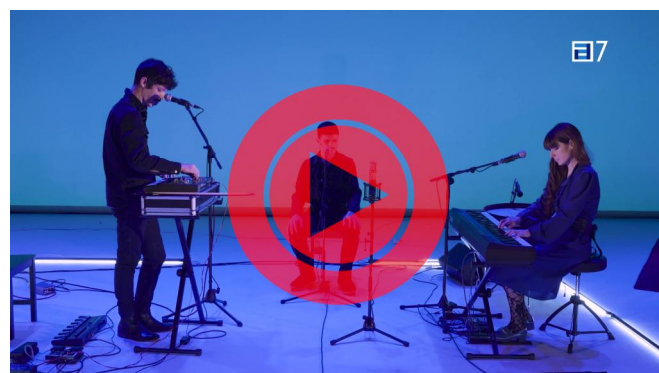

In his repertoire, ambient and organic melodies cohabit in a natural way, with arid and narrow textures, on which cinematographic scenes rise up, leading us to a light sonorous reverie; a selection of pieces of intense depth that draw a series of soundscapes of abstract evocation.

A treatise that plays with the musings of the modern symphony, ambient(al) music, avant-garde atmospheres, experimental electronic and a silent narrative.

MUSIC FOR IMAGINED FILMS

Their live performance is a proposal of slow and minimalist development. The loops and layers that Javier slowly builds up, handcrafted with the guitar, sometimes plucked and sometimes bowed, are the support for the piano motifs that Verónica incorporates, who also makes use of traditional percussion instruments, as well as voice.
